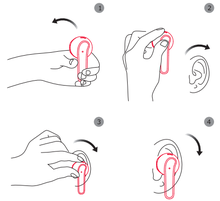
Wearing
Put the **" JVC T10 "** onto your ears and rotate to fit comfortably to get the best wearing and sound quality experience.



Pairing
Open the cover of the charging case ,take out the earphones,the earphones will turn on automatically.For new device connection, turn on the Bluetooth in your device and choose **" JVC T10 "** from the Bluetooth list to connect. You will hear system prompts after the earphones are connected to the device.
If the earphones have been connected before, they will connect to the last connected device automatically after being turned on.

Reset
In the power on state, touch the MFB of the earphones 5 times (two earphones at the same time),The earphones will automatically power off, return to the charging case, and perform a reset (this clears the pairing record between the earphones and the phone, but does not reset the left/right earphones pairing). When the earphones are taken out again, they will power on and search for a new pairing.
