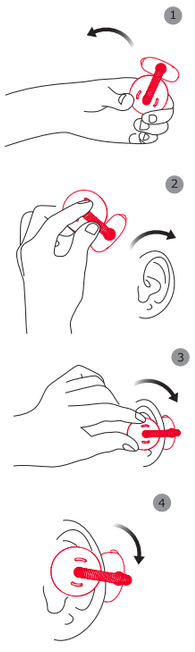
Wearing

Put the **"JVC E26A"** onto your ears and rotate to fit comfortably to get the best wearing and sound quality experience.



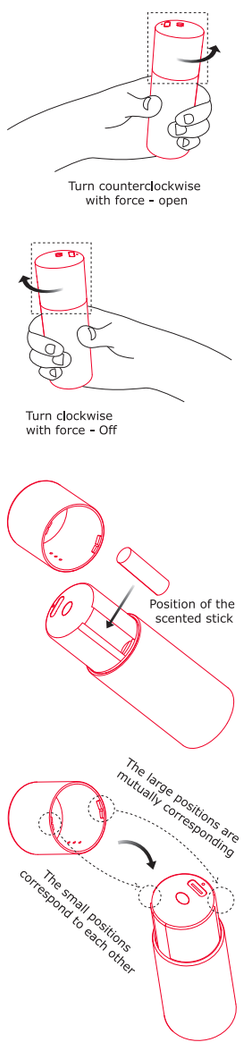
Pairing

Open the charging case cover, take out the earphones. The earphones will automatically turn on. For new device connection, turn on the bluetooth in your device and choose **"JVC E26A"** from the bluetooth list to connect. You will hear system prompts after the earphones are connected to the device. If the earphones have been paired before, they will automatically reconnect to the previous device when turned on.

Reset

In the power on state, touch the MFB of the earphones 5 times (two earphones at the same time),The earphones will automatically power off, return to the charging case, and perform a reset (this clears the pairing record between the earphones and the phone, but does not reset the left/right earphones pairing). When the earphones are taken out again, they will power on and search for a new pairing.

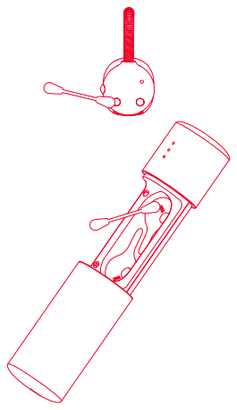
Step For Replacing The Aroma Sticks



(Note: When closing the cover, the positioning pins must align with the insertion, otherwise the charging port will be misaligned)

Product Cleaning

We recommend regularly cleaning the charging contacts of the charging case and the earbuds, as well as their surfaces.



Attention

*Private replacement of batteries without permission is not recommended.
*Batteries [battery packs or battery combinations] should not be exposed to lighting, baking or similar overheating environments.
*The input voltage and current standard ≤ 5V/0.5A when charging the headset charging compartment from an external power source;

⚠Safety Warnings and Precautions

To ensure your safety and extend the service life of this product, please strictly follow the warnings below:
1. Environmental Warnings
• Do not use this product in extremely high or low temperatures, or in dusty or humid environments.
• Avoid direct sunlight, fire exposure, or any overheating conditions.
• In environments with strong wireless signals or dense crowds (such as airports, stations, exhibitions, etc.), intermittent connection or interference may occur. This is within normal range. Please continue to use the device later or change the usage environment.
2. Operational Safety Warnings
• Do not drop, strike, or subject the product to strong vibrations.
• Do not disassemble or modify the device without authorization to avoid hazards or damage.
• If any abnormal condition occurs, stop using the product immediately and contact your distributor.
3. Battery and Charging Warnings
• When the charging case indicator shows low battery, please recharge in time. If the product is not used for a long period, please recharge it at least once every 30 days.
• Use power adapters that comply with national standards and are LVD-certified.
• The earbuds contain built-in batteries. Do not expose them to high temperatures or flammable environments.
• If the charging port of the earbuds contains foreign objects or has poor contact, gently clean the charging port with a cotton swab dipped in alcohol. Regular cleaning is recommended to ensure proper charging and power-on/off functions.
4. Important Notes
• If there are updates or changes to product functions, please refer to the official website or the sales page for the latest information.
• Please keep this manual for future reference.
